# Tricks Dance Studio

## ***A Little Bit About Us...***

Our goal is to provide **professional** dance training, but the broader goal is for our students to have a **positive** dance experience and develop a love for the art of dance for years to come. The thrust of our dance program at **TRICKS** is exposure to all aspects of **dance education**. Each class includes dance technique, expressive movement, musical & rhythmic awareness and life skills all while building artistic **confidence** and strong **self-esteem**. Our well-trained instructors follow a carefully planned syllabus that introduces dance skills in a **fun** and imaginative way and always correspond with our **theme weeks**.

Something that sets us apart from most dance studios is our "**Skill Poster**" system. With this system in place we can ensure all students are being taught age appropriate skills and technique and it helps track their **growth** and progression as a dancer.

At **TRICKS** Dance Studio there are always opportunities for **parent observation**. Each studio has a large window and benches for viewing classes and the last week of the month, parents are invited inside the studio to be the audience for the last few minutes of class.

There are two opportunities a year for your dancer to show off their newly discovered talents. We offer a **summer recital** and a Holiday performance of "**The Littlest Nutcracker**". These productions are fun, optional and no pressure events and our dancers love them!

Come experience the **magic** with us! Call us to set up a **FREE** trial class. (916) 351-0024
